ERRATUM* - MONTHLY DISCLOSURE OF THE TOTAL NUMBER OF SHARES AND VOTING RIGHTS IN THE SHARE CAPITAL

Clermont-Ferrand, France, January 21, 2020 (6:00 PM CET) – CARBIOS (Euronext Growth Paris: ALCRB), pioneer company in the field of bioplasturgy, updates its number of shares and its total number of voting rights.

Pursuant to article L.233-8 II of the French Commercial Code and article 223-16 of the General Regulation of the Autorité des Marchés Financiers (French financial markets authority):

On December 31, 2019:

- Total number of outstanding shares: 6,904,609
- Total number of exercisable voting rights (without treasury shares): 7,029,908\(^{(1)}\)
- Total number of theoretical voting rights (including treasury shares): 7,035,738\(^{(2)}\)

\(^{(1)}\): 7,037,310 exercisable voting rights as of December 31, 2019 were declared on January 06, 2020. Exercisable voting rights as of December 31, 2019 are adjusted to 7,029,908.

\(^{(2)}\): 7,043,140 theoretical voting rights as of December 31, 2019 were declared on January 06, 2020. Theorical voting rights as of December 31, 2019 are adjusted to 7,035,738.

This follows the correction of an error in the Cacéis Registry edited on January 02, 2020.

*: This Notice cancels and replaces the publication previously issued on January 06, 2020

About CARBIOS:

Carbios is a green chemistry company whose innovations meet the environmental and sustainable development challenges facing manufacturers. Since its creation in 2011 by Truffle Capital, the Company has developed, through biotechnology, two industrial processes that revolutionize the biodegradation and recycling of polymers. These innovations, a world first, optimize the performance and life cycle of plastics and textiles by exploiting the properties of highly specific enzymes.

CARBios' economic development model is based on the industrialization and commercialization of its products and/or enzymes, technologies and bioprocesses through license concessions directly or through joint ventures to major industrial players or sectors concerned by the Company's innovations. As such, Carbios created the joint venture Carbiolice in September 2016, in partnership with Limagrain Ingredients and the SPI fund operated by Bpifrance. This company, of which Carbios has majority control, will exploit the first technology licensed by Carbios by producing enzymatic granules to produce biodegradable and biobased plastics.

Carbios benefits from the qualification "Innovative Company" of Bpifrance allowing the eligibility of the Company's securities for the investment of Mutual Funds Placement in Innovation (FCPI). For more information, please visit www.carbios.fr
Carbios is eligible for the PEA-PME, a government program allowing French residents investing in SMEs to benefit from income tax rebates.
